## Introduction

The mission of Jhamtse Gatsal Children's Community is to provide a loving home and quality education to local children who are first generation learners. The Community is founded on the principles of mindful and sustainable living whereby we grow some of our own food organically and harness solar energy to power some of our buildings. Our goal is to become energy independent in the next five to seven years using wind and solar energy. Currently, the Community has 89 children who are studying in Classes PreK to 12. The Community is located in the remote foothills of the Himalayas in the Tawang District of Arunachal Pradesh near the Bhutan and Tibet borders.
